I plan to verbally update the CAG and explain where we are in the FS meetings. The factsheet was distributed to the CAG already and I have a few printouts. Carsen also invited the elected officials.

Interesting. It's on the agenda, and the weekly notes to the Administrator say that EPA will present information about our plan for developing an interim action for the upper nine miles. Were you just going to speak from notes and rely on the fact sheet? That would make sense given that you've presented multiple times.

If it is just the fact sheet, could you send me that final version? Thanks!

Hi Diane – we were just wondering if there is a presentation planned for tonight on OU4. If there are slides, could we see them? Thanks.
